From the airport by car: Travelling from Dublin airport to the city centre will take approximately 45 minutes to 1 hour depending on the traffic. Unless familiar with the city I wouldn't advise anyone to drive through it. If driving get a map or you will inevitably get lost.

The maps on this page have been copied from Google Maps. Please use Google to get directions **From** and **To** this location.

Bus routes from Dublin airport:

Airport to city centre buses (direct route):
