CUSTOMISED COMPRESSION GARMENTS & SPLINTS

Garment Personalisation
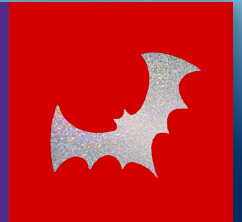

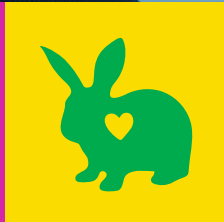

Thank you for choosing Second Skin for your custom-made garment.

We offer a range of base fabric colour choices, stitching colour, coloured trim and motif options so you can add some individuality to your garment.

A garment to suit your personality, while achieving your clinical goals.

Please note: We make every effort to provide images that closely represent the fabric colour.

However, due to all possible variants (light source when photographed, computer monitor quality, printing etc) we cannot guarantee that the images accurately represent the true fabric colour.

Please take this into account when choosing your colour selections.
